Company Profile: The Circle Academy

The Circle Academy is an online coaching brand focused on CBSE Mathematics for Grades 9–12. The business communicates concept-first learning, interactive online classes, doubt support and board-focused preparation.

Core Offering

Online CBSE Mathematics coaching

Teaching Positioning

Concept-first learning with structured practice

Primary Conversion Goal

Book a Free Demo enquiry

Website Reviewed

thecircleacademy.in + final Wix landing page

Website Audit Methodology

Design & UX

Visual hierarchy, CTA clarity, navigation and user journey

SEO

Title, headings, indexability and search relevance

Performance & Technical

Mobile speed, responsiveness and loading experience

Content

Message clarity, trust proof and parent decision support

Design & UX Audit

Evidence: Original Website Homepage

Observation

In the original homepage, the tagline “Inspire to Learn” was very prominent. But the exact class, subject and demo action were not clear in one strong message.

Impact

A new parent may understand the brand, but may take extra time to know the course offer and the next action.

Recommendation

Keep “Inspire to Learn” as a brand tagline. Add a clear hero headline and repeat the “Book a Free Demo” CTA.

User Journey Audit

Evidence: Grade 10 Journey

Evidence: Pricing Plans

Observation

The Grade 10 pages give useful details, but the user has to move between course, curriculum and pricing pages to decide.

Impact

Parents may spend more time comparing plans before taking the next step.

Recommendation

Keep the main website for details. Use a focused landing page to show offer, trust proof and demo form in one journey.

Performance & Technical Audit

Evidence: Mobile PageSpeed Test

Key Result

Mobile PageSpeed score was 84/100 and SEO score was 100/100. The site was accessible on both desktop and mobile.

Performance

84 / 100

SEO

100 / 100

Recommendation

Continue compressing images, testing mobile speed and checking key pages after future updates.

SEO Audit

Evidence: Homepage SEO Review

Strength

The website has clear topic relevance for CBSE Mathematics, reviews, results and course information.

Opportunity

The homepage headline is more brand/tagline focused. It can include stronger search-intent wording.

Recommendation

Keep “Inspire to Learn” as the tagline and use descriptive SEO copy such as “Online CBSE Mathematics Coaching for Grades 9-12”.

Content Audit

Evidence: Homepage Content Review

Observation

The website already has useful content such as results, reviews, teaching approach, programs and contact details.

Impact

Because the homepage is content-heavy, visitors with immediate demo intent may need a shorter path.

Landing Page Solution

I kept the message focused on one decision: understand the offer and book a free demo.

Website Audit Findings Summary

Strengths

- Strong brand identity
- Useful course and result content
- Google reviews and trust proof
- Mobile-accessible website

Areas for Improvement

- Tagline/hero message can be clearer
- Pricing comparison can be easier
- CTA journey can be simplified
- SEO heading hierarchy can improve

Opportunities

- Build campaign landing page
- Use QR codes in flyers
- Improve lead tracking
- Move strongest proof near CTA

Current Marketing Activities

Traditional Activities

- Word-of-mouth from students and parents
- Offline trust through teaching reputation
- Flyers/pamphlets planned for future campaigns

Digital Activities

- Main website
- Instagram and Facebook presence
- Justdial listing
- New Wix landing page for free demo leads

Traditional & Digital Marketing Alignment

Recommended Digital Marketing Strategy

Website

Use clear demo CTAs on important pages.

SEO

Improve title/headings using CBSE Mathematics keywords.

Social Media

Share results, testimonials and concept-first teaching clips.

Lead Tracking

Track form submissions, QR scans and WhatsApp enquiries.

Referral

Create a simple parent/student referral system.

Landing Page Strategy

The landing page was created as a focused campaign page for free demo lead generation.

01 Primary Goal

Generate free demo enquiries.

02 Primary CTA

Book a Free Demo.

03 Decision Flow

Trust → benefits → proof → form.

Evidence: Landing Page Hero

Landing Page Development: Hero & Trust

Evidence: Final Hero Section

Evidence: Trust Strip

Improvement Made

The hero explains the grade, subject, teaching method and next action in one place.

Primary CTA: Book a Free Demo

Landing Page Development: Student Needs & Benefits

Evidence: Differentiators Section

Problem-Solution Approach

The page explains how concept-first teaching, practice and doubt support solve common student problems.

Why Circle Academy

The benefits are shown as clear points: Concept-First Teaching, Interactive Classes, Structured Practice and Doubt Support.

Social Proof & Trust Section

Evidence: Results & Testimonials

Social proof was added before the final form to increase parent confidence before submitting details.

Trust Proof Used

Student feedback, verified review positioning and academic result evidence.

Lead Generation Form & Conversion Flow

Evidence: Final Demo Form

Project Outcome & Learning

What I Completed

- Company analysis
- Website audit report
- Digital marketing strategy
- Live landing page with lead form
- Desktop and mobile evidence

Outcome for The Circle Academy

- Clearer demo enquiry journey
- More focused landing page for campaigns
- Stronger CTA visibility
- Better use of reviews and result proof
- Lead form for parent/student details

What I Learned

- Website design affects conversion
- SEO and UX work together
- Traditional marketing can connect to digital journeys
- A landing page can capture leads clearly
- Evidence screenshots are important for project reporting
